

In **1999**, Wycliffe committed to starting a Bible translation program by the year **2025** in every language group who needed one.

Today, there are still over **350 million people** who do not have the Bible in their heart language; the language they understand best.

Together, we can help unlock God's Word for these unreached language communities—**before further generations pass**.

Part the Bible translation programs is to encourage **literacy**. This also means new access to information regarding **health care, agricultural methods and community development**. God uses these **tangible blessings** to share the Good News with neighboring villages and to develop **representation** within their national government. Wycliffe is also very culturally sensitive and supports **preservation and documentation** of each group's unique history.

Wycliffe Bible Translators, was founded in 1942. Their passion is that all peoples will have the opportunity to know Christ more deeply through access to His Word in the language they understand best; their heart language.

JAARS, headquartered in Waxhaw, NC, is part of the Wycliffe family of organizations. Through partnerships worldwide, JAARS provides quality technical support services and resources to speed Bible translation for all people. Areas of support include transportation, communication, computer/information technology, and health care services.

Zack & Matthew

Supporting Bible Translation through Information Technology and Health Care Services at JAARS Waxhaw, NC

After this I looked and there before me was a great multitude that no one could count, from every nation, tribe, people and language, standing before the throne and in front of the Lamb. And they cried out in a loud voice: "Salvation belongs to our God, who sits on the throne, and to the Lamb."

Rev 7:9-10

WHY WYCLIFFE?

LOREN:

God has given me a heart for translation through my experience living abroad.

To help Wycliffe realize their goal in Vision 2025 (see back), PCs and technology must work well and provide communication, translation tools, and more.

God has equipped me over the past 17 years for this ministry with foreign language and PC skills.

MICHELLE:

Homeschooling Matthew and Zack is a calling and takes most of my time and dedication. As they become more independent in their studies I am looking forward to volunteering at the Health Clinic.

As an RN I can use my skills to meet the health care needs of missionaries allowing them to focus on their primary task of Bible translation.

PARTNERSHIP

Will you go? Is God calling you to use the skills He's given you to reach people around the world? You'll never be sorry if you listen to His voice!

Will you pray? As we focus our attention on serving the Lord, we expect many spiritual battles. Will you join our prayer team and lift us up? At the same time, we would love to pray for and encourage you and your family as well.

Will you support us financially? Wycliffe is a faith-based organization which means we rely on individuals to partner with us financially. We cannot start our assignments until we reach 100% of our required family budget in monthly pledges.

It is exciting to be called to serve God in this ministry and even more exciting that He is leading people to partner with us. We look forward to how we will glorify God as a team—using the skills and resources He has given us to bring His Word to the ends of the earth.

If you have any questions about how you can be involved in this ministry, please see the back of this brochure for our contact information.
